PERSONAL SUMMARY

Computer Engineering student with strong skills in C++, Java, and Python. Experienced in algorithm development, problem-solving, and software development. Eager to contribute to innovative projects in the tech industry through a strong technical background and collaborative approach.

EXPERIENCE

DERECEHOCAM

Study Coach

08/2024 to 03/2025

- Developing personalised study plans, and providing effective learning strategies.

GENÇ MÜHENDISLER TOPLULUĞU

Corporate Relations Member

09/2022 to 07/2023

- Managed corporate communications and assisted in sponsorship processes.

PROGRAMMING SKILLS

- Languages: Python, Java, C++
- Tools: IntelliJ, Visual Studio Code, Pycharm, Linux, Git

LANGUAGES

English:

B1

Intermediate

EDUCATION

Hacettepe University, Bachelor of Engineering in Computer Engineering

01/2022 to Current

PROJECTS

Route Planner (C++)

- A distance-based route planning application for cities in Turkey.
- Determines the optimal route using DFS and BFS-based algorithms.

Maze Solver (Java)

- Finds the exit path using the recursive DFS algorithm.
- Processes the maze file to identify obstacles, paths, and exit points.

Secret Image (C++)

- Implemented mean, Gaussian smoothing, and unsharp masking filters for grayscale images.
- Applied convolution operations to enhance image quality and noise reduction.
- Utilized triangular matrices to optimize storage and processing efficiency.

HOBBIES AND INTERESTS

- Enjoy playing strategy games and solving puzzles
- Currently focused on developing my knowledge and skills in Cybersecurity.
